Subject: Required training — Model of Care

Dear Provider:

As a contracted provider for the Special Needs Plan (SNP) from Amerigroup, you are required to participate in an annual training on Amerigroup's Model of Care. This training covers the differences in Medicare Advantage programs and includes a detailed overview of SNPs highlighting cost sharing, data sharing and benefit coordination.

Training for Amerigroup's SNP product is self-paced and available via web portal at **<https://anthemmoc.skillport.com>**.

Additional Medicare SNP reference materials, including provider manuals and FAQ, can be found under the *Training Programs* at the state specific sites found at <https://providers.amerigroup.com/pages/home.aspx>.

Amerigroup is required to maintain a record of your annual Model of Care training. Please complete the attestation located at the end of the training material on the web portal to indicate training completion.

Sincerely,

Amerigroup
